

D5 Infusion Console Line Out Cable

The D5 Infusion Console Line Out Cable from BookerLAB enables the connection between a Hammond® console and a 1/4" line level input. Instant connectivity is achieved by plugging the 5-pin connector into a 5-pin tone cabinet socket.

Compatibility & Connectivity

The D5 Infusion makes it easier than ever to connect to various line-level peripherals without the need for a technician.

Isolation

The D5 Infusion gives an isolated and reduced line level "dry" organ signal from the console.

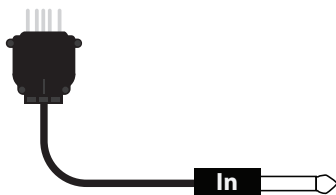

Cabling & Connectors

Equipped with 15' of cabling, the D5 Infusion terminates in a 1/4" TS Mono plug.
